

Investor Presentation

FIRST QUARTER 2026

Adjustments on the reporting presentation

Beginning in the fourth quarter of 2025, we present the operating results of our Cable and Sky businesses as a single reportable segment, Telecom, with three categories of revenues: Residential, Satellite and Enterprise. This change in segment reporting is a result of organizational changes that integrated the operations of our Cable and Sky businesses into one single business, and that our senior management (chief operating decision maker) now analyzes the results of our operation, makes decisions and assigns resources to it as a single business. Through September 30, 2025, the operating results of our Cable and Sky businesses were presented as separate reportable segments. As a result of this change in our segment reporting, the operations previously reported under our former Cable and Sky segments are now classified into a single reportable segment for any comparative period presented.

Q1'26 Highlights

CONSOLIDATED

- Revenue declined by 3.1%, while Operating Segment Income (“OSI”) increased by 5.2%, representing a 41.4% margin, continuing the sequential improvements.
- OSI margin expanded by approximately 330 basis points, driven by ongoing efficiencies and synergies.
- Operating Cash Flow (“OCF”)¹ margin of 24.2% remained solid due to a combination of Opex and Capex optimizations.

RESIDENTIAL & ENTERPRISE

- Upgraded to fiber-to-the-home (“FTTH”) over 1.5 million homes, in line with our full-year goal.
- Passed 11.8 thousand homes with FTTH, reaching over 20.0 million homes passed with our network.
- Broadband subscribers of 5.7 million, with 25.0 thousand net adds, as we keep focusing on value customers as well as customer satisfaction and retention.
- Mobile subscribers of 747.6 thousand, with 94.7 thousand net adds driven by our innovative mobile virtual network operations (“MVNO”).
- Residential Services revenue increased by 0.9% year-on-year driven by consecutive broadband net adds over the last four quarters. Enterprise Services revenue grew by 30.0% supported by the signing of new projects with the public and private sectors.

SATELLITE

- Total Revenue Generating Units (“RGUs”) of 3.4 million, with 325.7 thousand disconnections.
- Revenue declined by 24.6%, driven by a decrease in the RGUs base of 27.6%.

¹ OCF is defined as total OSI minus capital expenditures in property, plant and equipment. A reconciliation of total OSI to consolidated operating income, and the amount of capital expenditures in property, plant and equipment, are presented in the Notes of Segment Information, and Property, Plant and Equipment, respectively, to our Interim Unaudited Consolidated Financial Statements as of March 31, 2026, and December 31, 2025, and for the three months ended March 31, 2026, and 2025.
